

# ATS01-24

## Solar Asset Tracker

### Product Description

Introducing the ATS01-24, a compact and stylish solar-powered GPS tracker meticulously crafted for monitoring various assets, including trailers, trucks, containers, and robust construction equipment. Engineered for durability, this sleek device is your ultimate choice when seeking a resilient, petite, and solar-powered tracker capable of consistent and extended reporting.

Equipped with a robust solar panel and a dependable backup battery, the ATS01-24 ensures uninterrupted functionality for months on end. Its hassle-free installation eliminates the need for wiring or cabling, making asset tracking effortlessly efficient. Choose the ATS01-24 for a seamless blend of form and function in tracking your valuable assets.

### Product Features

- Real time and Buffer Locations
- Rugged and Sleek
- IP67 Rating
- Low Battery and Removal Alerts
- Rechargeable Battery
- BLE 5.3 for Sensors
- Solar Powered

# Fueling your fleet with intelligence.

## Product Specifications

### Dimensions

3.4 x 2.37 x 1.20in  
88 x 60.4 x 30.7mm

### Weight

5.3oz  
150g

### Operating temperature

-22°F to 176°F  
-30°C to +80°C

### IP Rating

IP67

### Installation

Magnets, Screw, Double-sided tape

### Bluetooth

BLE 5.3

### Battery

Rechargeable Li-Polymer 2500 mAh/3.6V

### Connectivity

LTE Cat-M1: B1, B2, B3, B4, B5, B8, B12, B13, B19, B20, B25, B26, B27, B28, B66, B71, B85

### Indicator

Network, GNSS and Battery

### Alerts

Tamper, Low Battery, Geo-Fence
